# Coming Summer 2012.... Minneapolis Marriott Northwest

The Northland Inn will undergo an extensive \$24 million renovation prior to becoming the Minneapolis Marriott Northwest during summer 2012.

### Planned Changes

The atrium lobby will receive an extensive natural stone fireplace to create a comfortable and functional Great Room. The area will offer beverage service and a complimentary Wi-Fi hot spot to provide guests a comfortable space to socialize or work.

The existing front desk area will be replaced with Marriott's signature front desk reception pods.

All guest rooms will be refurbished with the Marriott guestroom package.

Other changes include dramatically expanding the fitness center with state-of-the-art fitness equipment, adding a third ballroom and creating a new restaurant concept.

### Meeting Space

The hotel has more than 33,000 square feet of meeting space, making it one of the top ten conference hotels in the Twin Cities area.

The 230 room all-suite hotel has space to accommodate meetings for up to 700 guests. After the renovations are complete the hotel will offer three ballrooms, 140-seat amphitheatre, executive board room and 25 meeting breakout rooms.

### Marriott Rewards

As with all Marriott hotels, the Marriott Minneapolis Northwest will participate in the award-winning Marriott Rewards frequent travel program. This program allows members to earn hotel points or airline miles for every dollar spent during each stay.
